- 1 Friable asbestos material means any material containing more than one (1) percent asbestos, as determined using the method specified in Appendix A, Subpart F, 40CFR, Part 763, Section 1, *Polarized Light Microscopy*, that, when dry, can be crumbled, pulverized, or reduced to powder by hand pressure. If the asbestos content is less than ten (10) percent, as determined by a method other than point counting by Polarized Light Microscopy (PLM), verify the asbestos content by point counting using PLM.
- 2 Category I non-friable Asbestos-Containing Material (ACM) means asbestos-containing packings, gaskets, resilient floor covering, and asphalt roofing products containing more than one (1) percent asbestos, as determined using the method specified in Appendix A, Subpart F 40 CFR, Part 763, Section 1, *Polarized Light Microscopy*.
- 3 Category II non-friable Asbestos-Containing Material (ACM) means any material, excluding Category I non-friable ACM, containing more than one (1) percent asbestos as determined using the methods specified in Appendix A, Subpart F, 40CFR, Part 763, Section 1, *Polarized Light Microscopy*, that, when dry, cannot be crumbled, pulverized, or reduced to powder by hand pressure.

NOTE: asphalt/vinyl floor tiles, mastic/adhesive, transite materials and house siding are considered Category II materials.

- 4 As defined by the Department of Administrative Services, Division of Facilities Management, regulation governing the State of Delaware contractor/supervisor/worker asbestos training and certification program and training/certification for asbestos professional services.
- 5 Attach a copy of the written waiver as issued by the Department of Natural Resources and Environmental Control, Air Quality Management Section, Engineering and Compliance Branch.
